PREFACE

It is a noteworthy fact that no adequate topical concordance has ever hitherto been published. For centuries preaching from texts has been a Christian custom, yet in the search for these texts clergymen have had to depend upon their own knowledge, the ordinary concordance, and the fragmentary subject-indices usually appended to the Bible. The Bible is a vast and complex literature. No student ever feels that he has mastered it. There are many vivid texts to adorn his discourses that elude his search at the moment he needs them, either because his memory is not sufficiently agile, or because that particular use of the text has not occurred to him before.

In the old days, most preaching was expository. The clergyman selected a Biblical passage, and then prepared a sermon to expound the meaning and implications of it. Preaching in modern times has become increasingly topical. The clergyman selects a subject, suggested by the spiritual needs of his people, or by the contemporaneous scene, and he then searches for some text appropriate to that theme. How much time can be consumed in such a search, every Biblical student, every preacher knows.

Most prefaces belong in the literature of apologetics. This preface is not among them. The preparation and publication of this book need no defense. Had such a book as this been available to me a quarter of a century ago, when I began my ministry, it would have been of inestimable value. It is a task that has needed doing for long generations. I have undertaken it because I needed such a volume myself, and because other clergymen and Bible students have told me how indispensable such a book would be. The completion of the work gives me great satisfaction. The book should fill a gap in the library of all Bible students as an important work of reference.

Harper's Topical Concordance should not be confused with the usual concordance. The latter, valuable as it is, is a text-finder, enabling one to find a particular verse under the principal words which it contains. The present work will help one to find appropriate texts for a topic, even though the topic itself is not among the words of the text. If, for instance, a text is desired for the subject of Honesty, the ordinary concordance would not readily yield the striking verse, Deuteronomy 25:13, "Thou shalt not have in thy bag divers weights, a great and a little." If the topic is Forgiveness, how would a student find Joel 2:25, the verse reading, "I will restore to you the years that the locust hath eaten"? If the topic is Inconstancy, what key word would be likely to come to mind to lead one to the text, Hosea 6:4, "Your goodness is as a morning cloud, and as the early dew it goeth away"? What finer text for a sermon on Compensation could be found than that of Ezekiel 1:1, "As I was among the captives, . . . the heavens were opened, and I saw visions of God!" Yet the older concordances do not help one to find such texts. In them one would find for the topic Determination such a text as "Solomon determined to build an house for the name of the Lord," 2 Chronicles 2:1, but he would not find that more vivid and unusual text, Ezekiel 1:12,

"Whither the spirit was to go, they went; and they turned not when they went."

There are many words in common use today which do not occur in the King James version, words such as Ambition, Audacity, Aspiration, Responsibility. These have their important place in the present topical concordance, though they do not occur in the older text-finding volumes.

The common concordance, while far from being complete in listing every unimportant word in the Bible, is necessarily filled with many words that have no homiletical value. A concordance that happens to be before me at the moment lists such words as Another, As, Because, Before, Over, Upon. Such words have no place in a topical concordance, and in the present volume only comprehensive topics in their substantive form occur. Necessarily, also, a good concordance of the traditional arrangement will list every instance in which a particular word appears. Many of these instances are repetitious, or devoid of all significance. The concordance before me lists over three hundred texts containing the word Behold, three hundred and sixty containing the word Blood, two hundred and seventy containing the word Babylon. In the present book, texts are not classified in accordance with some particular word common to them, but in harmony with their subject or sentiment. Only significant and vivid verses are included.

In the usual concordance Biblical proper names are listed. The concordance to which I refer begins with Aaron (more than 100 texts); Children of Aaron; Aaron, with Moses; Aaron, with sons; Aaronites; Abaddon; Agatha; Abana; Abarim. The present book includes no proper names among its topics, except those that have symbolic significance, like Babel, and Jerusalem, and Zion.

By the omission of all this unimportant matter, the present volume is much more compact, and much more usable than the older concordance, and the larger type makes the book a pleasure to handle and read.

This book has another great advantage over the usual concordance. Because of the necessity of including so much matter, the usual concordance must contract and abbreviate. Often the omissions are not indicated, so that the reader cannot be sure he has the complete text without referring to the Bible itself. Often the text is not given at all, but only the reference. In the present volume, there are no references without the text; omissions, if they occur, are clearly indicated; and otherwise the quotations are complete and accurate. No turning the pages of the Bible is necessary to verify a given text.

No liberties whatever are taken with the text except in an occasional change of punctuation made necessary by the indicated abridgements. For instance, in Proverbs 21:4, we find these words, "A high look, and a proud heart, and the plowing of the wicked, is sin." Under Plow in the present book we find the following quotation, "The plowing of the wicked is sin," the comma before "sin" being omitted.

The present volume is, then, not an abridged concordance of the older kind. It is a wholly new work.

The plan of the book is very simple, practical, and convenient. All subjects are arranged in their alphabetical order. Under each subject the verses appear in their Biblical order. The King James Bible is used without exception, and the spelling, hyphenization, and punctuation conforms with early seventeenth-century standards.

Every effort has been made to exclude from the book any theological bias. It would be an unpardonable impertinence in such a work as this to let a particular type of religious thought and conviction color one's judgment in the selection and exclusion of texts. The book is as comprehensive as the Bible itself, because it is the Bible, just as it is given to us, with all its treasury of riches. The present volume is not compiled to sustain any sectarian viewpoint.

All verses in the present volume have been carefully verified. In addition to the professional proofreading, every quotation has been double-checked by a competent assistant and myself. The reader may count upon the accuracy of the entire book.

The adequacy of the volume is evident in the fact that 25,000 verses have here been arranged under more than 2100 topics. The reader will find under the various subjects, not only the obvious texts that one would expect to find there, but also a surprising number of unusual texts, vivid, full of beauty and spiritual value. Finally a thorough system of cross references will aid the student who is looking for a text with some exact shade of meaning, some precise emphasis.

The first concordance to the whole English Bible was printed in London in 1550. It was compiled by John Marbeck, whose story is told in Fox's *Book of Martyrs*, although Marbeck himself escaped martyrdom. He was too poor to purchase Thomas Matthews' Bible, when it was published in 1537, so he borrowed a copy, and began to write it all out for himself by hand. A friend remonstrated with him, saying "Tush! thou goest about a vain and tedious labour. But this were a profitable work for thee, to set out a concordance in English."

"A concordance," said he, "what is that?" The friend replied that it was a book to find out any word in the whole Bible by the letter, and that there was one in Latin already. But Marbeck said that he had no learning to go about such a thing. The friend insisted. "Enough," said he, "for that matter, for it requireth not so much learning as diligence. And seeing thou art so painful a man, and one that cannot be unoccupied, it were a good exercise for thee."

The present compiler, as he looks back upon this long and laborious task, is convinced that these words describe it well. It has been a task requiring not so much learning, as diligence, and judgment, and patience. If this work proves to be a helpful reference book for students of the Bible, and a revealing anthology of the most marvelous literature in the long history of religious aspiration, the toil of many months will seem in retrospect short and light.
